The EMIG is dedicated to helping students decide on a specialty and informing them of EM career opportunities and residency application procedures. Students are exposed to the ER environment via shadowing and clinical workshops on common ER procedures. Shadowing allows students to become immersed in the fast-paced lifestyle, while clinical workshops give hands-on experience in suturing and intubation. Through all of these learning opportunities, we hope our members come away with a better understanding of what it means to be an EM physician.

## ACADEMIC HERALDRY: THE SYMBOLS OF LEARNING

The university commencement procession is a pageant, alive and bright with the dress and ceremony inherited from the medieval universities of the eleventh and twelfth centuries.

To preserve their dignity and meaning it became necessary for these universities to set rules for academic dress. American universities agreed on a definite system in 1895 and set up a code of academic dress. In 1932 the American Council on Education presented a revised code which governs the style today.

**The Gown.** The flowing gown comes from the twelfth century. It has become symbolic of the democracy of scholarship, for it completely covers any dress of rank or social standing beneath it. It is black for all degrees with pointed sleeves for the Bachelor's degree; long closed sleeves for the Master's degree, with a slit for the arm; and round open sleeves for the Doctor's degree. The gown worn for Bachelor's or Master's degrees has no trimmings. The gown for the Doctorate degrees is faced down the front with velvet and has three bars of velvet across the sleeves, in the color distinctive of the discipline to which the degree pertains. For certain institutions the official colors of the college or university may appear on the gown or its decorations.

**The Cap.** The freed slave in Ancient Rome won the privilege of wearing a cap, and so the academic cap is a sign of the freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as square to symbolize the book, although some authorities claim that the mortar board is the symbol of the masons, a privileged guild. The color of the tassel on the cap denotes the discipline, although a gold tassel may be worn with a doctoral gown.

**The Hood.** Heraldically, the hood is an inverted shield with one or more chevrons of a secondary color on the ground of the primary color of the college. The color of the facing of the hood denotes the discipline represented by the degree; the color of the lining of the hood designates the university or college from which the degree was granted.

**The Mace.** The mace, carried by the Chief Marshal, was in medieval times a weapon of war. Today it is a ceremonial symbol of authority. It is universally carried in academic and ecclesiastical processions.

The mace carried in today's procession was conceived, designed and made by Jesse O. Morgan, a friend of LSU Health Sciences Center at Shreveport.

## OATH OF HIPPOCRATES

I do solemnly swear by that which I hold most sacred that I will be loyal to the Profession of Medicine and just and generous to its Members.

That I will lead my life and practice my Art in uprightness and honor.

That into whatever house I will enter, it shall be for the good of the sick to the utmost of my power.

That, holding myself aloof from wrong, from corruption, from the tempting of others to vice, I will exercise my Art solely for the cure of my patient and will give no drug, perform no operation for a criminal purpose, even if solicited, far less suggest it.

That whatsoever I shall see or hear of the lives of men which is not fitting to be spoken, I will keep inviolably secret.

These things do I promise. And in proportion as I am faithful to this, my oath, may happiness and good repute be ever mine. In the opposite if I shall be foresworn.
